

November 2006

To Whom this May Concern:

In October of this year, the Kansas Economic Development Alliance and the Kansas Chamber of Commerce Executives had the pleasure of hosting Kansas District Magistrate Judge Tom B. Webb as the Key Note Speaker for their Annual Conference in Lawrence, Kansas.

Judge Webb delivered an outstanding "You Can Make a Difference" message to an audience of over 100 who had almost completed a two day educational conference. Any outside observer would never have been able to tell that his speech was one of the final presentations. Attendees, including myself, were all on the edge of their seats waiting to hear what he would say next. His dynamic and professional delivery of such personal issues and his ability to connect to every participant in the audience at some level is what makes him one of the best motivational speakers I have ever had the honor of listening too.

In my history of planning special events, I have never had a speaker generate such high remarks and obtain consistent positive feedback on an evaluation form. Additionally, our committee has already decided that we will be asking him back to speak at future conferences.

I enthusiastically endorse Judge Webb for any motivational speaking engagement and welcome the opportunity to listen to him again.

Sincerely,

Cindee C. Stratton
Manager, Special Events
Department of Commerce
