Subject: Judge Tom Webb

I have known Tom for about 12 years and have heard him speak on numerous occasions. I consider him one of the best, if not the best inspirational speakers I have ever heard. His message applies to young and old alike and when he tells his life story, there is not a dry eye in the audience. His message crosses all racial, cultural, gender, and religious barriers and touches the hearts of all. He would be a great asset to military leaders as a resource during the predeployment phase of military operations.
