To Whom It May Concern:

"He made me feel that all children were special and worthwhile". "I overheard another teacher say that Judge Webb's presentation was the best in-service message we ever had". "I felt that his message brought to the forefront how important positive interpersonal relationships are to the learning process". "Let me just add that I thought his presentation was wonderful, and a great reminder that we have to look past the surface of every human we come into contact with and judge them on inner qualities, potential, etc. rather than their exterior."

In the paragraph above I have quoted just a few of the responses I received when I asked my faculty for responses to Judge Webb's presentation. When I asked for a response by e-mail I was amazed by how many of the staff responded and just how positive they were to his presentation. He really touched the feelings of the staff at our in-service this fall. A great in-service can do a lot to set a positive tone for the year, and I know our staff left with a great attitude about working with children.

We have already arranged for Judge Webb to speak to our students later in the year. I feel his message will resonate well with them also. His personal experience and his outlook on life and relationships make for an engaging story and an uplifting message.

Sincerely,

Dick Hall
