Subject: In-Service

Hey Mike,

I just wanted to drop you a note and tell you how much I enjoyed today's in-service. With today's economic climate and the seemingly constant discussion of budget cuts and staff reductions, the judge's presentation provided a real boost to me personally as I'm sure it did many others.

For me, it was the best in-service we've had since I started at Hays High. That's not to say that learning technology skills and the other topics we've discussed weren't important because that type of training is necessary. However, today went above and beyond – it helped renew my spirit and reminded me that my job truly is important. Frankly, I wish we could do something like this once a year, although I realize budget considerations make that difficult.

It was a good afternoon for me and I want to thank you for the opportunity to listen to such a dynamic speaker as Judge Tommy Webb.

Bill
