Judge Tommy Webb
PO Box 517
Sublette, Kansas 67877

Dear Judge Webb,

I wanted to thank you again for your talk with our staff. Your comments were so appropriate to the children of our district. I have had numerous comments from staff about how your words inspired them to a renewed energy and focus for the school year. I was in a classroom where the teacher was intent on incorporating the "You Are Special" theme to the first week of school. A staff member came to me after your presentation and said, "I wouldn't have missed this for anything". He even thanked me for the inservice!

The overwhelming response from staff was so positive that I can't help but know the effect on our students will be evident in their success this school year.

I would hope that staff and students in all districts could hear your words. If you need any recommendation or comments for future speaking opportunities, I would gladly be available for comment.

Educationally yours,

Donna Bailey
